

GHASSEN BEN ALI

Junior Full Stack Developer (React • Java/Spring Boot)

+216 52245247 ghassenbenali2@gmail.com linkedin.com/in/ghassenbenali github.com/BenAliGhassem
Ariana, Tunisia Open to relocation

SUMMARY

Full Stack Developer with a Master's in Information Systems Security who builds React front ends and REST APIs (Spring Boot, Django, Laravel) with CI/CD and SAST/DAST security testing built in. Built and deployed 3 web platforms, including a freelance client platform used daily for a year.

EXPERIENCE

End-of-Studies Intern – DevSecOps & AI

SOTETEL

01/2026 - 06/2026

- Automated security audit report generation by building an AI-assisted platform (React/TypeScript, Django REST API, PostgreSQL), validated in a production-like setup with 5 users
- Secured access for 4 user roles by implementing RBAC with role-based data isolation across the REST API
- Embedded security testing into every commit by building a GitHub Actions CI/CD pipeline with SAST (Snyk), DAST (OWASP ZAP) and container scanning (Trivy), deployed with Docker and Nginx

Freelance Full Stack Developer

Medicapet

08/2024 - 03/2025

- Delivered a complete veterinary platform to production in under 2 months by developing the React front end, Laravel REST API and MySQL database
- Digitised billing for 72 consultations per day by building a custom invoice module used daily by the clinic for one year

End-of-Studies Intern – Full Stack & AI

Medianet

02/2024 - 05/2024

- Built a complete e-commerce website end to end (React front end, Laravel REST API, MongoDB), delivered over 8 Agile sprints with weekly reviews and Git-based code review
- Added personalised product recommendations by integrating a scikit-learn service (Flask API) into the platform

EDUCATION

Master's in Information Systems and Infrastructure Security

Higher Institute of Computer Science (ISI) Ariana

2024 - 2026

Bachelor's in Computer Science (GLSI, with Honors)

Faculty of Sciences of Tunis (FST)

2021 - 2024

SKILLS

FRONTEND

React TypeScript JavaScript

BACKEND

Java Spring Boot Spring Security

Django Laravel Flask Python

REST APIs

DATABASES

MySQL PostgreSQL MongoDB

DEVSECOPS & TOOLS

Git GitHub Actions CI/CD Docker

Nginx Azure Snyk OWASP ZAP

Trivy Linux Agile/Scrum

PROJECTS

University Orientation

Estimated students' admission chances for target universities by building a Java/Spring Boot REST API with a React front end and MySQL, enhanced with the OpenAI API.

Scori – Student Score Calculator

Side project in React, Laravel, MySQL, deployed on Azure; ranks students by score for engineering program admission.

CERTIFICATIONS

Meta Front-End Developer

Azure AI Fundamentals

Python for Data Science & AI

Foundations of Cybersecurity
